

## auroSTOR

### Available in 3 different litre volumes.

This twin coil unvented solar cylinder manufactured from stainless steel has a 25 year warranty on the shell. Each cylinder features two sensor pockets for simple straightforward connection of the control sensors and a 22kW rated coil for a rapid heat up. Insulation exceeds CHeSS best practice and heat loss is as low as 0.08kW/h.

### Features and benefits

<b>Connections at the front of the cylinder</b>	Offers easy installation for the installer
<b>uniSTOR cylinders operate using a mains water pressure</b>	Does not require a feed from a cold water storage tank
<b>2 sensor pockets</b>	Offers easy installation for the installer
<b>22kW internal coil</b>	Rapid cylinder heating
