

Background

Electric cars: Benefits For our clients and local communities

To your client...

- Convenient and flexible transport – a car when you need it and only when you need it
- Reduced transport spend – a cost effective alternative to reimbursing employee mileage, pool cars, taxis or hire cars
- Reduced hassle – licence checks, general administration, fleet checks, insurance, maintenance, cleaning, tax, breakdown cover and more all taken care of

To the community...

- Improved mobility for those with limited access to a car when needed
- Improved economic well-being – reduced community transport spent
- Reduced parking pressure and congestion – up to 10 cars removed per shared vehicle

And beyond...

- Improved air quality – zero tailpipe emissions
(No Nox or Particulates)
- Reduced carbon emissions – 30-40% lower well to wheel carbon footprint, and a shared asset.
