ecoTEC exclusive with
Green iQ

High efficiency
combination boiler

COMBINATION BOILER

-  Best for two to four people
-  Best for up to two bathrooms
-  Cost-effective
-  No need for separate cylinder or loft tank
-  Prevents frost damage

What are the advantages?

'Combi' is short for combination, because the boiler heats both hot water and provides central heating in combination.

A combi boiler heats water as you draw it from the tap. It doesn't need a water storage tank or a cylinder because the boiler's connected directly to the water mains, heating water as it's needed.

Combi boilers are best suited to homes with fewer than two bathrooms. Homes that need larger supplies of hot water are

usually better suited to a system or open vent boiler with a hot water cylinder.

Combi boilers are cost effective and energy efficient, with a compact size that's ideal for smaller properties where space is limited. Because there's no need for a water storage tank or a hot water cylinder, a combi boiler can free up space for conversion, storage and living.

Key features

- ErP A rated boiler with up to 95% efficiency, helping you to reduce your carbon footprint and save money on your fuel bills
- Available in both 35 and 43kW output; suitable for larger properties with higher hot water needs
- 85% recyclable
- Automatically adjusts to any type of gas
- Quality German design and engineering which is manufactured at award-winning UK facilities
- Designed for a peaceful home, the ecoTEC exclusive is awarded the Quiet Mark for its reduced noise
- Built-in heat recovery system to further reduce energy bills
- Compatible with Vaillant's vSMART™ app based control for heating on the go

ecoTEC exclusive with Green iQ

High efficiency combination boiler range

The ecoTEC exclusive with Green iQ combination boiler can modulate its output to just 10% of the total output provided, dramatically reducing fuel consumption and your energy bills.

Our highest 43kW output combi boiler gives you our best ever hot water performance which in turn can supply 17.8 litres of hot water per minute.

All ecoTEC exclusive boilers offer low energy consumption and premium components to give outstanding performance. Each one is ultra-quiet, awarded the Quiet Mark for innovative reduced-noise design by the Noise Abatement Society, and designed for a peaceful home.

Dimensions

Model	835	843
Boiler height (mm)	720	720
Boiler width (mm)	440	440
Boiler depth (mm)	406	474
