END17PLUS8 | V1 MARCH 2017

A photograph of a white Vaillant ecoTEC plus 800 boiler mounted on a white-painted brick wall. To the right of the boiler is a white door with a silver metal handle. In the bottom left corner, there is a small table with some papers and a brush, and a basket is visible in the bottom center.

ecoTEC plus 800

High efficiency
combination boiler

COMBINATION BOILERS

-  Best for two to four people
-  Best for up to two bathrooms
-  Cost-effective
-  No need for separate cylinder or loft tank
-  Prevents frost damage

What are the advantages?

'Combi' is short for combination, because the boiler both heats hot water and provides central heating in combination.

A combi boiler heats water as you draw it from the tap. It doesn't need a water storage tank or a cylinder because the boiler's connected directly to the water mains, heating water as it's needed.

Combi boilers are best suited to homes with fewer than two bathrooms. Homes that need larger supplies of hot water are

usually better suited to a system or open vent boiler with a hot water cylinder.

Combi boilers are cost effective and energy efficient, with a compact size that's ideal for smaller properties where space is limited. Because there's no need for a water storage tank or a hot water cylinder, a combi boiler can free up space for conversion, storage and living.

ecoTEC plus

High efficiency combination boiler range

Extremely reliable and displaying all the in-built quality Vaillant is known for, the ecoTEC plus is clearly one of the best combi solutions available today.

The ecoTEC plus combi boiler is available in a range of power outputs to meet the heating requirement of your home.

All ecoTEC plus boilers offer low energy consumption and premium components to give outstanding performance. Each one is ultra-quiet, awarded the Quiet Mark for innovative reduced-noise design by the Noise Abatement Society, and designed for a peaceful home.

Key features

- The ecoTEC plus boiler has been awarded the Which? Best Buy 2017
- ErP A rated boiler with up to 93% efficiency, helping you to reduce your carbon footprint and save money on your fuel bills
- Rapid hot water delivery of up to 15.9 litres per minute, heating only the water you require - without the need for a storage tank or cylinder
- For larger homes, ecoTEC plus combination boilers are available in 25, 32, 35 and 38kW heat outputs
- Quality German design and engineering which is manufactured at award-winning UK facilities
- Designed for a peaceful home, the ecoTEC plus is awarded the Quiet Mark for its reduced noise
- Compatible with Vaillant's vSMART™ app based control for heating on the go

Dimensions

| Model | 825/832 | 835 | 838 |
|--------------------|---------|-----|-----|
| Boiler height (mm) | 720 | 720 | 720 |
| Boiler width (mm) | 440 | 440 | 440 |
| Boiler depth (mm) | 338 | 372 | 406 |
