ecoFIT pure 400

High efficiency
regular boiler

REGULAR BOILERS

What are the advantages?

A regular boiler, also known as open vent, is so called because it is linked to an outside vent. In addition to the boiler, the system comprises a storage cylinder and hot water tank that provides central heating and hot water to the household.

If your home has multiple bathrooms, regular boilers are perfect as they supply hot water to a number of taps at the same time.

Regular boilers work well if you are replacing an old regular heating system, and are ideal if water pressure is low in your area. Regular boilers are also compatible with solar water heating and heat pump systems for a lower carbon footprint and lower energy costs.

ecoFIT pure

High efficiency regular boiler range

The ecoFIT pure regular boiler is available in a range of power outputs to meet the heating requirement of every home.

All ecoFIT pure boilers offer low energy consumption and premium components to give outstanding performance. Each one is ultra-quiet, awarded the Quiet Mark for innovative reduced-noise design by the Noise Abatement Society, and designed for a peaceful home.

The ecoFIT range has a compact and lightweight design to ensure it can easily fit inside a traditional kitchen cupboard.

Key features

- ErP A rated boiler with up to 94% efficiency, helping you to reduce your carbon footprint and save money on your fuel bills
- Highest quality aluminium which is designed for long life and easy maintenance
- Compact, with the option to fit a rear flue; the ecoFIT pure is ideal for a kitchen cupboard fit solution
- Quality German design and engineering which is manufactured at award-winning UK facilities
- Designed for a peaceful home, the ecoFIT pure is awarded the Quiet Mark for its reduced noise
- Simple and easy-to-use built-in control panel
- Compatible with Vaillant's vSMART™ app based control for heating on the go

Dimensions

Model	412/415/418/425/430/435
Boiler height (mm)	602
Boiler width (mm)	375
Boiler depth (mm)	295

*When installed by a Vaillant Advance Partner up until 31st December 2017
