ecoFIT pure 600

High efficiency
system boiler

SYSTEM BOILERS

What are the advantages?

System boilers need a cylinder to store hot water, but system components are built into the boiler itself, so there is no need for a tank in the loft.

System boilers are ideal for homes with multiple bathrooms and can give a constant supply of hot water to a number of taps at the same time.

With no need for a loft tank, system boilers free up space and eliminate worries about leaks or frost damage. They can also work with solar water heating systems and heat pumps, making a great entry into renewable heating solutions.

The built-in components of a system boiler make installation quicker and neater. Also, once installed, it is economical to run.

ecoFIT pure

High efficiency system boiler range

The ecoFIT pure system boiler is available in a range of power outputs to meet the heating requirement of every home.

All ecoFIT pure boilers offer low energy consumption and premium components to give outstanding performance. Each one is ultra-quiet, awarded the Quiet Mark for innovative reduced-noise design by the Noise Abatement Society, and designed for a peaceful home.

The ecoFIT range has a compact and lightweight design to ensure it can easily fit inside a traditional kitchen cupboard.

Key features

- ErP A rated boiler with up to 94% efficiency, helping you to reduce your carbon footprint and save money on your fuel bills
- Highest quality aluminium which is designed for long life and easy maintenance
- Compact, with the option to fit a rear flue; the ecoFIT pure is ideal for a kitchen cupboard fit solution
- Quality German design and engineering which is manufactured at award-winning UK facilities
- Designed for a peaceful home, the ecoFIT pure is awarded the Quiet Mark for its reduced noise
- Simple and easy-to-use built-in control panel
- Compatible with Vaillant's vSMART™ app based control for heating on the go

Dimensions

Model	612/615/618/625
Boiler height (mm)	700
Boiler width (mm)	390
Boiler depth (mm)	295

*When installed by a Vaillant Advance Partner up until 31st December 2017
